

The Role of the Management in the Development of the E- Learning System

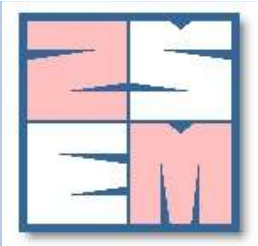

Ph. D. Duro Njavro, dean

About us

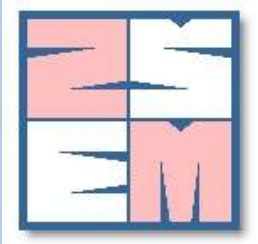

Zagreb School of Economics and Management – www.zsem.hr

Introduction

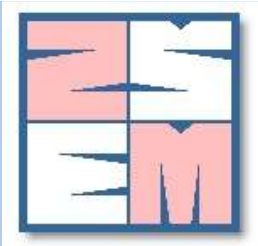

- The first generation of students was enrolled at **ZSEM** in 2002.
- We were fortunate to be able to utilize all the advantages of implementation of **ICT** into education from the start.
- **ZSEM** is currently the only higher education institution in Croatia using e-learning systematically.

E-learning at ZSEM

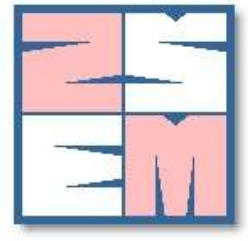

- The idea of introducing e-learning – management at ZSEM.
- We use courseware tools **WebCT**.
- The role of **CARNet** – **Croatian Academic and Research Network**

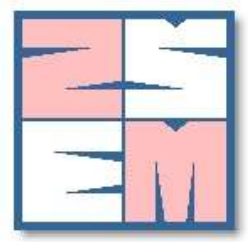

ELMS at ZSEM

- E-Learning team
- Coordinator of the year
- Courses
 - the Syllabus
 - Lectures
 - Exercises
 - On-line Quizzes and tests
 - Calendar
 - E-mail, Forum, etc.

Results

- Currently, around **700 students** are enrolled at ZSEM and we have about **50 courses**.
- **1.** – The courses with highly developed WebCT pages.
 - These courses have well-designed pages and make maximum use of the tools offered by WebCT – **40%**.

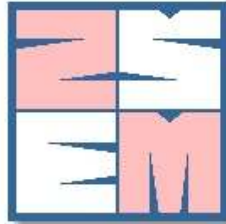

Results

- **2.** – The courses which include most of the necessary elements but still lack on-line tests – **45%**.
- **3.** - Courses still in the beginning of development – **15%**.

Results

- On-line testing
- Evaluation for each courses at the end of every semester.
- 4.76 – average grade – how useful WebCT is to the quality of students education (scale 1-5).

**DISTANCE
LEARNING**

In the Industrial Age, we went to school.

In the Communication Age, school will come to us.

– Distance Learning Cyberstation

THANK YOU
