eLearning in an International Network of
Knowledge
- **Study centre Open University**
Distance learning

History

- LINOV
Leuvens Institute for Innovative Learning
- ICT/International networks
- eLINK
eLearning in an International Network of Knowledge
- AVServices/eLINK
+ Study centre Open University
= AVNet

Our position at K.U.Leuven

- **Coordinator Educational Affairs:**
 - Academic responsibility
- **ICTS:**
 - Responsibility for budgets
 - Overall technological responsibility
- **Other:**
 - Education support centres
 - International Office
 - Technical Services
 - Etc...

Our mission

an integrated, multidisciplinary support (mainly)
for education at K.U.Leuven and in its
Association

with regard to media, organisational,
pedagogical, and technological aspects,
and particular focus on networked e-learning and
distance education in an international context

Expertise centre

Education support

For whom?

- **For personnel at K.U.Leuven**
Teachers, education teams, central services,
AVNet team members
- **For students at K.U.Leuven**
Regular students, doctoral students, trainees,
working students
- **For the Association K.U.Leuven**
Students, teaching staff, managers

Our three-layer support model

1. We stimulate teachers (students) to produce AV/MM or other e-learning projects on their own: focus on simple and cheap solutions.
2. We offer teachers (students) advice and facilities (for free) at AVNet to work on their own with professional tools and our infrastructure.
3. We make it for you (not completely for free).

Our support

- Distance education for non-campus students
- Digitisation and compression
- Distribution
- Networked e-learning
- Maintenance and repairment
- Integral Multimedia support in lecture halls
